

A heatmap visualization showing a grid of colored squares. The colors range from dark blue to light blue, with a gradient that is darkest in the bottom-left corner and fades to white in the top-right corner. The grid is composed of 10 columns and 10 rows of squares. The bottom-left square is the darkest blue, and the top-right square is the lightest blue. The color intensity decreases as one moves from the bottom-left towards the top-right.
